To whom it may concern,

**Re: Des Nixon & Associates**

For the last two years I have worked closely with Des Nixon & Associates (DNA) on a number of projects and building maintenance works.

One of the largest building projects undertaken by DNA for Crossway, was the recently completed Prayer Chapel and Counselling Centre. This self funded, two million dollar, project was undertaken by the Crossway community to provide new facilities for our growing Asian congregations, weddings, funerals and a dedicated prayer room. The lower level providing rooms for a counselling centre that services a broad section of the local community needs.

During this project, a strong emphasis was placed on maintaining a tight budget, while continually reviewing the design to ensure that the right balance of cost and quality was achieved. Throughout the project, DNA consistently demonstrated a high level of professionalism and integrity that was characterised by an amazing flexibility with a strong "can do" attitude. DNA also provided invaluable support and technical information during this and other projects, which have resulted in substantial cost savings for the Crossway community.

It is with pleasure, that I recommend Des Nixon and Associates for consideration with any proposed building works of this magnitude.

Regards,

Russell Oettinger  
Facilities Manager  
Crossway Baptist Church.
